Acclimatized Plants 

Shore Road
Greens Farms
Connecticut

CRONAMERE ALPINE NURSERIES, Inc.

THIS CATALOGUE includes only a partial number of the many species and varieties of alpine and rock plants which we can supply, and, in case you do not find the plants you desire listed, kindly write us your requirements.

The following list of plants have been tested for hardiness. All our plants are thoroughly acclimatized in this section before being sent to the customer. We have found after they become accustomed to our climatic conditions in New England that their growth and cultivation present very few difficulties or losses when transplanted in other gardens.

We have a trained group of men, who are thoroughly experienced in the construction of rock gardens, building walls and pools. Advice given freely on these subjects.

We strive to the best of our knowledge and ability to have our plants true to name, but cannot be held responsible in case mistakes sometimes occur.

TERMS OF SALE

Sufficient money must be added to order to cover cost of postage. Our terms are strictly cash, but will ship C .O. D. provided 25% of the amount of the order is remitted.

Where two prices are mentioned, the last is quoted for specimen size plants.

We cannot be liable for cases of failure due to transportation or other causes.

10% discount is allowed on ten plants of one variety.

PLEASE READ

FOR THOSE who are particularly interested in growing native plant material, we have a list which will be sent on request.

¶The plants will be shipped direct from our collector in the north. Plants coming from this region are perfectly hardy and many of them are beautiful subjects for the rock garden.

Our plants are strong and healthy, both potted and field grown stock, and should give you bloom the first year. We do not like stingy plants ourselves and think that our customers feel the same way about it. All plants are packed so that practically all root disturbance is avoided. Planting suggestions and information on cultivation gladly furnished.

SEEDS

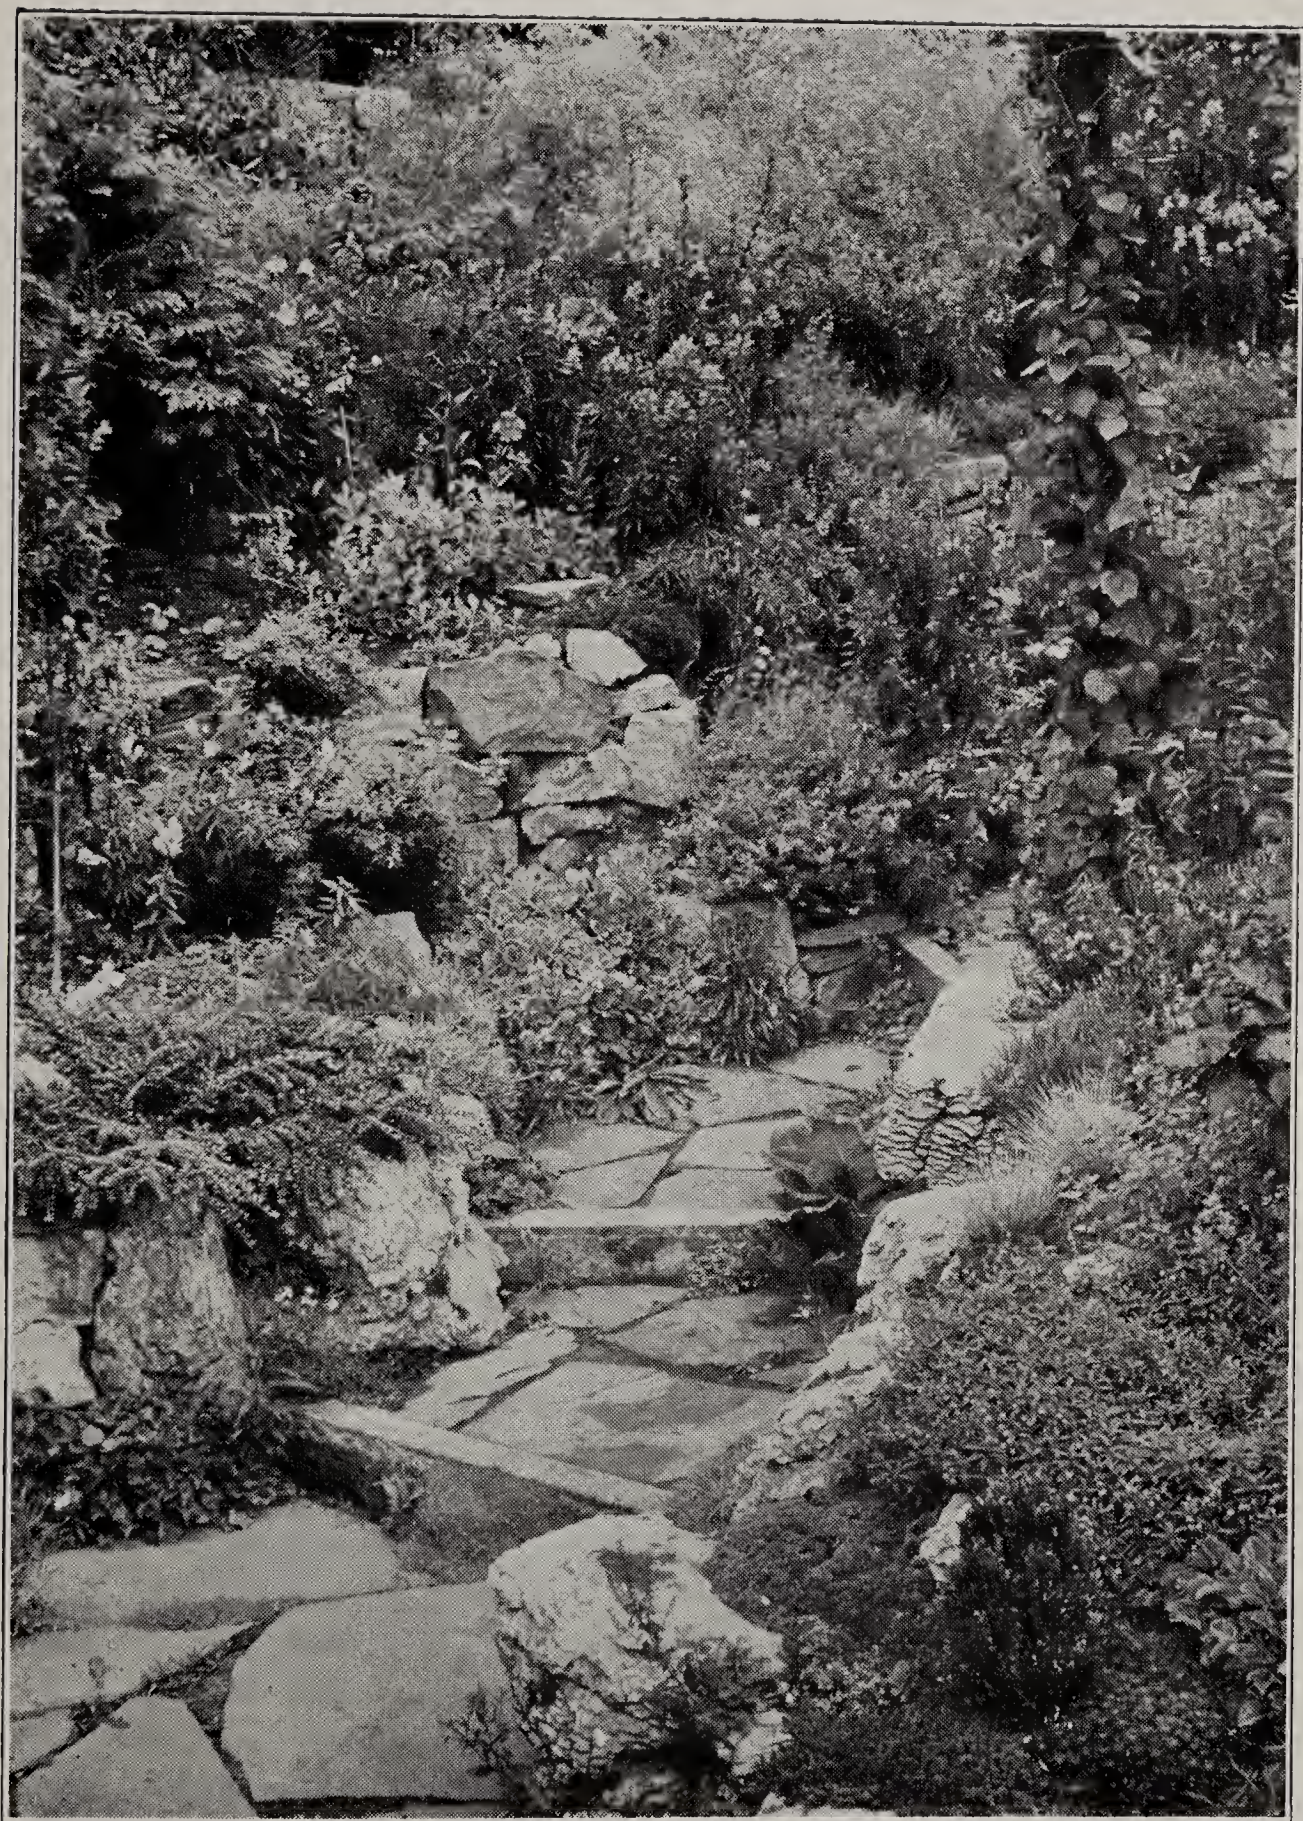

If you are interested in obtaining seeds of any of the plants listed in this catalogue, write us and we will be glad to reserve them for fall delivery.

Price 25 cents to 50 cents a package according to the rarity of the plant mentioned.

HARDY ROCK AND ALPINE PLANTS

Choice and Rare Varieties

ABELIA GRANDIFLORA — Lovely dwarf evergreen shrub.	
Pale pink flowers all summer. Large field grown plants	
2-3 ft.	1.00
3-4 ft.	1.50
ACAENA MICROPHYLLA —Bronze-green leaves with crimson fruits. Sun or shade	
	.40
ACHILLEA	
Filipendulina. Fern-like foliage. Flat flower heads in brilliant yellow; 3 to 4" across35
Moschata. White flowers. Fragrant35
Tomentosa. Green, ferny foliage. Brilliant yellow flower heads; 1½" across. All summer. Sun. Farrer recommends this variety25

ACONITUM	
Anthora. Pale yellow flowers on 3 ft. stems40
Wilsoni. Spikes of very large powder blue flowers50

The Rock Garden in July

Pulsatilla. Pasque Flower. Deep rich purple flowers. Very desirable Spring flower. 9 in.35
Sylvestris. Creamy white flowers. Height 1½ ft.25
ANTHYLLIS MONTANA CARMINE — Prostrate mat of densely feathered leaves. Large heads of bright ruby colored flowers35
AQUILEGIA — Shade and leafmold.	
Coerulea. Ferny foliage. Enormous blossoms of soft lavender-blue35
Flabellata Nana. Japanese dwarf with waxy lavender flowers35
Jocunda. Vivid green foliage. Enormous blue flowers on 18 in. stems60
Pyrenaica. Alpine with deep blue flowers35
ARABIS — Sun or partial shade	
Albida Fl. Pl. Double White. Very pretty35
Albida Rosea. Dwarf species. Spikes of pink flowers35
Alpina. White flowers. Early spring25
Alpina Variegata. Leaves deeply heart-shaped at the base. Small white flowers. Variegated foliage40
Muralis Roseum. Lovely pink flowers. Scarce50
ARCTOSTAPHYLOS UVA URSI — Low evergreen with white flowers followed by red berries. Rare and fine50 - 1.00
ARENARIA	
Alpina. Grassy foliage. Tiny white flowers. Carpet35
Balearica. Dainty carpeting plant. White flowers35 - .50
Montana. Close tufts covered with charming white flowers in early spring. A valuable rock plant30
Verna Caespitosa. Tufted habit. Dainty white stars on 1 in. stems35
ARMERIA	
Cephalotes Rubra. (Bees' Ruby) Giant Thrift. Large rosy heads. 18 in. Rare and fine50
Caespitosa. Pretty dwarf. Tight dense clumps of narrow leaved tiny rosettes. Almost stemless heads of pale pink flowers75
Lauchiana. Dwarf habit. Rosettes of narrow leaves. Deep rose coloured flowers. Long season of bloom25
Maritima Alba. A white flowering Thrift. 6 in.35
ARTEMISIA FRIGIDA — Graceful feathery silvery foliage. Shrubby plant35 - .50
ASTER — These require sandy loam in full sun.	
Alpinus. An abundance of violet blue flowers with eye of bright gold30
Alpinus Dark Beauty. Dwarf form with dark blue flowers ..	.30
Alpinus Rubra. Large rosy flowers35
Diplostiphioeides Leichtlini. Pale blue flowers. 1 ft. Fine ..	.50
Kumleinii. "Prairie Gem" blue. A compact, low growing plant with solid masses of bright blue, golden-centered blossoms in late September. Rare. Very choice strain. Full sun ..	.75 - 1.00

Mauve Cushion. Round cushion-like plants. Lovely mauve flowers in autumn25
Pliades. Dainty foliage. Profusion of lavender flowers on 8 in. stems. Autumn. Sun40
Salviafolia. Large white flowers. Rosettes of downy foliage. Scarce40
Subcaeruleus. Large lilac blue flowers. Dwarf type25
Subcaeruleus Leichtlini. Lavender flowers in profusion50

Bellis Rotundifolia Caerulescens

ASTILBE — Plant in moist shady situation.	
Humile Chinensis. Very dwarf type from China. Rose coloured flowers	1.00
Pumillo Chinensis. Dwarf habit. Erect flower spikes of lilac rose	1.25

AUBRIETIA —Cut back after spring bloom is past half. Shade.	
<i>Bougainvillei</i> . Fine hybrid. Soft purple flowers35
<i>Deltoidea Leichtlini</i> . Compact habit. Large rosy-carmine flowers. Blooms again in autumn35
<i>Deltoidea Purpurea</i> . Compact attractive foliage covered in spring with purple flowers35
<i>Hybrids</i> . These are all charming varying in colour from deep purple to pale lilac25
<i>Mrs. Lloyd Edwards</i> . Beautiful crimson variety. Large, handsome flowers. Very fine50

BELLIS ROTUNDIFOLIA CAERULESCENS — Dainty little miniature from Morocco. Charming lavender blue daisies on 3 in. stems from rosetted foliage. June until frost	
	.40
BELLIUM	
<i>Bellidioeides</i> . Dainty white miniature daisy tinted pink40
<i>Minutum</i> . Neat, small-flowered white Alpine Daisy. Native of Greece. 2 in. All summer35
BRAUNERIA ANGUSTIFOLIA — Foliage low with short, silvery hairs. Rose coloured cone flower on stems 8 to 14 in. June and July. A native of the Northwest. Fine	
	.75
BRUCKENTHALIA SPICULIFOLIA —Evergreen of Heath-like appearance. Clear rose bell-shaped flowers on short terminal racemes	
	.50 - 1.00
CALLIRHOE INVOLUCRATA —Trailing habit. Showy crimson flowers. All summer and autumn. Full sun	
	.35
CALLUNA VULGARIS NANA — Dark green mossy foliage. Small, beautiful flowers. Shade	
	.50 - 1.00
CALTHA PALUSTRIS — (Marsh Marigold) Large showy yellow flowers on 10 to 15 in. stems. Shade	
	.30 - .50
CAMPANULA — Campanulas enjoy partial shade and a good loamy soil. Bloom for midsummer and fall.	
<i>Abietina</i> . Bright green rosettes. Flower stems 8 to 10 in. with lovely blue flowers. Profuse bloomer for a long period. Very fine. Partial shade40
<i>Alliariefolia</i> . Hairy leaves. Creamy-white flowers on 2 ft. stems. Fine in background35
<i>Amabilis</i> . Dark blue flowers. Very fine50
<i>Attica</i> . Large violet-blue flowers. Grey foliage. Rare75
<i>Aucheri</i> . Large open bells of satiny purple. 6 in. Rare75
<i>Barbata</i> . Lovely bearded pale blue bell-flower of the high Alpine meadows. 6 in.35
<i>Basket Variety</i> . Pale blue flowers.35
<i>Carpatica Wisley Variety</i> . Large violet flowers. Blooms from July until autumn35
<i>Carpatica White Star</i> . Pure white flowers. Very fine and free flowering35

China Cup. Fine large flowers of Carpatica type40
Collina. Tufts of scalloped foliage. Large purple bells on graceful 12 inch stems75
Elatines. Huge blue bells 1½ to 2 in. across. Stems 4 to 6 in.50
Excisa. Pretty Alpine species. Lovely blue flowers. Small type ..	.75
Fenestrellata. Close growing form 2 to 3 in. with large, lavender wide open flowers. Long stamens35
Garganica. Dwarf trailer. Flowers blue with white center. ..	.35
Garganica Alba. Compact rosettes of shiny foliage. White variety40
Garganica Hirsuta. Velvety leaves. Pale blue flowers50
Garganica W. H. Paine. Blue flowers with white center. Fine ..	.60
Giant Harebell. Pretty slender variety with large rich blue flowers. Height 1 ft.50
Glomerata Acaulis. Pretty dwarf form with clusters of rich violet flowers. One of the best40
Grey Lilac Species. A dwarf plant with erect deeply cut bells of greyish-blue35
Istriaca. A prostrate campanula with hairy leaves, egg-shaped, and wide open blossoms of blue. Rare and fine ..	.75
Latifolia. Erect trumpets of palest lilac. Enjoys cool, moist soil35
Laurii. Masses of deep lavender flowers. Very fine35
Macrorrhiza. Graceful showers of violet bells35
Miranda Bellardi. Close growing foliage with stems 3 to 4 in. covered with blue bells. One of the best of the small types ..	.40
Mixed Variety. Very fine mixed variety25
Muralis. Close growing spreading foliage. Tubular violet flowers, ½ in. across30
Persicifolia Moerheimi. Large white, semi-double flowers. Very fine40
Poscharskyanum. Pretty trailing plant with lovely blue bells ..	.50
Pulla. Small clustered foliage of glossy green. Very slender stems. Purple bells50
Pulloides. Wide open purple bells. A choice Alpine60
Punctata. Large creamy bells peppered inside with red dots. Very light, sandy soil in full sun30
Pusilla. Dwarf species with dainty bells of pale blue. 4 to 6 in. A gem for rock crevices35
Pusilla Alba. Dainty white variety of above. 3 in.60
Pusilla Lissadell Variety. Dense mats of fine foliage. Nodding bells of lavender on 4 in. stems75
Riverslea Beauty. Handsome large blue flowers. Very fine ..	.40
Sarmatica Watkinsii. Long, scalloped foliage. Pale blue bells. Very distinct species50
Thrysoides Lutea. Wide rosette of long, narrow leaves. Pale yellow bells75
Turbinata. Violet-blue cup-like flowers 1¼ in. across. Dwarf ..	.50
Turbinata Alba. White form of above50
Zoysii. Rare and beautiful miniature species. Azure-blue flowers75

CATANCHE COERULEA — Lovely blue blossoms waving on bare 8 in. stems above the rosette of foliage all summer. Poor soil. Sun30
CERASTIUM TOMENTOSUM — Masses of grey foliage and white flowers25
CHEIRANTHUS ALLIONI — (Siberian Wallflower) Rich orange flowers. All summer25
CHRYSANTHEMUM ARTICUM — Arctic chrysanthemum. Beautiful foliage. Showers of lavender-pink flowers. August to October40
CLEMATIS INTEGRIFOLIA — Not a climber for its shoots, growing 2 to 3 ft. long, die back each winter. Large deep blue flowers produced all summer75
CODONOPSIS	
Meleagris. Pale blue bells with chocolate markings, hanging on erect pedicels of half a foot or more50
Ovata. Trailing plant with soft hairy leaves. Pale purple flowers50
CONVOLVULUS MAURITANICUS — Trailer. Blue flowers on 3 in. stems. All summer50
CORONILLA IBERICA —Trailing habit. Bright yellow flowers35
CORYDALIS CHEILANTHIFOLIA — Fern-like foliage. Yellow flowers40
COTULA SQUALIDA — Forms a carpet of minute, ferny, evergreen foliage. 3 in. Shade50
CRUCIANELLA STYLOSA —Masses of dainty green foliage. Pink flowers25
COTYLEDON SIMPLICIFOLIA — Low tufts from which spring gracefully arched stems bearing tiny golden flowers25
CYCLAMEN	
Europaeum. Leaves handsomely marbled and flowers varying from soft pink to deep rose. Very fragrant	1.00
Neapolitanum. Marbled leaves. Flowers vary in color from pure white to rich pink	1.00
DAPHNE CNEORUM — Low-growing evergreen shrub.-Fragrant rosy flowers. Spring75 - 2.00
DEINANTHE COERULEA — Clusters of pale violet flowers. For cool, well-drained acid soil75
DELPHINUM	
Chinensis. Dwarf with feathery foliage. Intense blue flowers35
Nudicaule. A most delightful plant with scarlet flowers. 6 in. to 1 ft. in height35
DIANTHUS — Require full sun in sandy loam	
Alpinus. Close shiny green mats with large rosy flowers on 3 in. stems35 - .50
Beatrix. Lovely double pink flowers. 9 in. All summer50
Caesius. Blue-grey mats. Fringed rosy flowers30

Caesius Grandiflora. Bright pink fringy flowers. Very fine rock plant35
Camenensis. Large rosy blossoms on close mats of green foliage. Rare75
Campestris. Masses of bright green foliage. Pink blossoms50
Cruentus. Cluster head of brilliant red flowers35
Callizonus. Tufted habit. Large rosy flowers75
Deltoides Alba. White variety with dark eye25
Deltoides Brilliant. A beautiful rock plant with crimson-red flowers25
Deltoides Major Sterns. Fine hybrid. Masses of flowers in June35
Frigidus. Dwarf variety. Large rose-coloured flowers35
Graniticus. Prostrate mats. Small, starry pink flowers35
Knappi. Clear yellow flowers. 6 to 9 in. stems. Rare40
Lacinathus. Single mixed. Fringy flowers in pink and lavender35
Montanus. Clustering foliage. Flowers pale lavender on stems 6 to 8 in. Sun40
Neglectus. Neat little grassy tufts. Bright pink flowers with a buff reverse. 6 in. stems. One of the finest35 - .50
Plumarius. Large flowers. Beautifully frilled.30
Plumarius Highland Queen. Deep soft rose coloured flowers in great profusion. 6 in. Fine50
Roysii. Spiny foliage making small cushions with pink blooms. Rare and fine. Partial shade50
Richardi. A trailer covered with small rosy pink blooms. Rare50
Seguieri. Tufts of grass-like foliage. 9 in. stems which end in a single flower deep rose with a purple eye. Rare50
Spiculifolius. Loose graceful habit. Pale pink flowers. Very pretty. 6 in. stems. New and unusual75
Sundermanni. Pretty white lace variety. 6 in. Rare40
Superbus. Pale lilac fringed flowers. Very fragrant35
Waldsteini. Fragrant, little feather pink from the Eastern Alps50
DICENTRA FORMOSA —Beautiful fern-like foliage. Racemes of pink and lavender tubular flowers. Blooms all summer35
DICENTRA OREGANA GLAUCA —Glistening white flowers.75
DORONICUM CAUCASICUM —Large yellow blossoms. Very effective50
DOUGLASIA	
Laevigata. Tufts of glossy, dark green foliage. Bright pink flowers on 2 to 3 in. stems. Cool moist situation75 - 1.50
Vitaliana. Ashy grey tufts. Stemless golden flowers. Shade50 - .75
DRABA	
Bertoloni. Neat tuft of bright green thorny looking rosettes which sends up heads of yellow flowers on a hairless stem of 2 or 3 in.50
Flatnitzensis. Grey foliage. White flowers. High Alpine Sun35

Hirta. Grey foliage. White flowers. Sun35
Johannis. Loose mats. Small white flowers50
Olympica. Dull green foliage. Sprays of yellow flowers. Partial shade. Very beautiful50
DRYAS SUNDERMANNI —Large white flowers that are pale yellow in the bud stage. Flowers are followed by silvery fluffy whirls of seeds. Limy soil50
EDRIANTHUS CARICINUS — Rosettes of narrow leaves. Purple flowers similar to Campanulas. Very choice	1.00
Dalmaticus. 3-4 in. Fine blue flowers40
EPILOBIUM HECTORI — A neat creeper with leaves that have the appearance of hammered copper. White flowers. 1 in. high50
EPIMEDIUM MIXED —Lovely foliage for shady spots. Mixed colours. Peat and moisture50 - .75
EPIMEDIUM VIOLACEUM — Orchid like blossoms of lavender. Shade60
ERICA — The Ericas add great charm to the rock garden. Partial shade and acid, peaty soil.	
Carnea. Dwarf shrub with rosy-red flowers	1.00
Carnea Rosea. About 6 in. high. Nodding, rosy bell-shaped flowers. Blooms all fall and winter50 - 1.00
Campacta Nana. Dwarf and compact. Pink flowers. 9 in. ..	.50 - 1.00
Mediterranea. (Heath Biscay) Rich red, sweet-scented flowers50 - 1.00
Searlei. Clear white. Foliage keeps beautifully green in the fall50 - 1.00
Stricta. Dull green, spiny foliage. Tiny bell-shaped flowers ..	.50 - 1.00
Trehani. Grey foliage. Large purple bells. Fine heather for rock garden50 - 1.00
Vagans. The flowers are in closely packed shoots and vary in shades of purple50 - 1.00
Vagans Alba. White form of the above50 - 1.00
Vagans Aurea. Yellow form of the above50 - 1.00
Vulgaris. Pale pink Heather. Dwarf50 - 1.00
Vulgaris Hammondi. Pure white flowers in great profusion ..	.50 - 1.00
Vulgaris Hypnoides. Deep green foliage. Pink flowers. 8 to 12 in.50 - 1.00
Vulgaris Searlei. Lovely dark green foliage. White flowers ..	.50 - 1.00
ERIGERON — Valuable subjects for the rock garden. Sandy soil. Full sun.	
Alpinus. Soft pink daisy-like flowers. Rare alpine. Very dwarf ..	.35
Mucronatus. A gem for the rock garden. Close growing 6 to 8 in. stems. All summer and autumn. Full sun, sandy soil ..	.50
ERIOGONUM CRASSIFOLIUM. Low mats of velvety leaves and many umbels 4 to 5 in. high of soft sulphur-yellow blossoms with stamens longer than the petals. June60

ERINUS — Full sun or partial shade.

Alpinus. Dwarf evergreen. Rosey coloured flowers. 3 to 4 in.	.35
Alpinus Albus. Spikes of white flowers. Very pretty dwarf Alpine. Soon spreads into mats of lovely foliage35
Alpinus Carmineus. Dwarf. Bright red variety35
Dr. Hanelle. Smaller type. Close-growing mats with glowing crimson flowers. Sandy soil35

ERODIUM — Full sun. Sandy leaf soil and loam.

Amanum. Soft lovely bluish grey foliage with white blossoms having yellow centers. Very effective. Sun50
Chamaedryoides Roseum. A tiny Alpine. Tufts of glossy crinkled leaves with delicate pink flowers. All summer. Partial shade	1.00
Cheilanthesifolium. Ferny foliage covered with grey down. Large, pink flowers with deeper veins. Blooms all summer and autumn	1.00
Macradenum. Tufts of soft green ferny leaves. Pale pink flowers with large blotches on two upper petals. Sun75
Manescavi. Large, green ferny foliage with showy rosy flowers. Sun50
Supracanum. Silver encrusted leaves. Pink flowers. Very distinctive. Sun75
Trichomanefolium. Deeply cut ferny leaves. Rose-coloured flowers, with the two upper petals marked in lavender. Sun75

ERYNGIUM ALPINUM ATROVIOLACEUM — Long spiny bracts. Steel blue blossoms. Sun and poor soil**ERYTHRAEA DIFFUSA MASSONII.** Clumps of glossy leaves with a profusion of bright waxy rose-pink flowers**EUPHORBIA** — Full sun and poor sandy soil.

Myrsenites. Prostrate evergreen. Handsome blue-green leaves. Showy heads of golden yellow. Decorative foliage all year50
---	-----

Polychroma. Showy yellow bracts. 12 in. Very symmetrical growth75
--	-----

EVONYMUS

Kewensis. Very tiny evergreen trailer with small round green leaves75
--	-----

Radicans. Dense-growing trailing vine with dull green leaves; white veins. 4 yr. plants50
--	-----

Radicans Colorata. Winter creeper. Fine foliage. 4 yr. plants50
--	-----

Radicans Variegata. Trailing vine with small variegated leaves. 3 yr. plants75
---	-----

FESTUCA GLAUCA — Dwarf, blue-grey tufted grass. Very pretty. For rock garden or border. 8 in.**FELICIA PETIOLATA ROSEA** — Small pink daisy-like flowers. Trailing plant. For wall or rock garden

GENISTA — Full sun, sandy loam. Fine for walls

Hirsuta Decumbens. 12 in. Yellow flowers. Foliage slightly hairy	1.00
Kewensis. Dwarf spreading habit. 1 ft. high. Creamy white flowers in May. Rare	1.25
Prostrata. Prostrate shrub with yellow flowers. Very fine ..	.50
Sagittalis. Dwarf prostrate species. Bright yellow flowers ..	.75
Tinctoria. Fine shrublet. Golden-yellow flowers75
Tinctoria Fl. Pl. An almost prostrate form with spikes of double golden-yellow flowers	1.00

GENTIANA

Acaulis. Large rich blue trumpets. 4 in. Sun75 - 1.00
Altaica. Tall growing type 12-15 in. Large blue flowers75
Angustifolia. Fine flowers of deep blue. Leaves very long of narrow paddle-shape, rounded at the tips75 - 1.00
Calycosa. Many flowering stems crowned with large blue flowers from July to October. 8-12 in. Moist soil	1.00 - 1.25
Cruciata. Clusters of deep blue flowers40
Detonsa. A rare American species. Fringed deep blue flowers. 12 inches75 - 1.00
Lagodechiana. Highly satisfactory plant, and one of the easiest to grow. Large pale blue flowers. Fine for Rockery. July-August	1.00
Newberryi. Western American Gentian. Habit similar to <i>Gentiana Acaulis</i> . Deep blue flowers	1.00
Purdomi. Violet flowers on procumbent stems. Narrow green leaves. Very fine85
Rochellii. Big blue trumpets over evergreen mats. 4 in.	1.00
Saponaria. Flowers wide-mouthed and of brilliant blue. Stems 9 in. or a foot high. Moisture-loving species85
Septemfida. Large flowers of clear soft blue. 9 in. stems. From the Caucasus. Partial shade. Peaty soil50 - .75
Sino-Ornata. Immense blue trumpets. 4 in. Peaty soil. Partial shade and moisture75 - 1.00
Walujewi. Of dwarf habit with small attractive blue flowers. New type from Russia50

GERANIUM — Sun and sandy soil.

Aconitifolium. Daintily cut leaves. Pure white flowers60
Fragaformis. Beautiful and interesting foliage with handsome flowers. Rare and fine	1.00
Grandiflorum. Large blue flowers. Dwarf habit40
Ibericum. Showy violet flowers50
Lancastriense. Low-growing mat form of <i>Geranium</i> with pinkish-lavender flowers, yellow stamen. Fine for trailing over rocks, but not an invasive spreader50 - .75
Pratense. Large violet-blue flowers. 18 in.35 - .50
Sanguineum Lancastriense. Rosy-pink flowers veined with purple40
Sessifolium. Dark green leaves. Milk-white blossoms50

GEUM — Full sun and rich loam.

Aurantiacum. Rare species. Dark green foliage. Large orange-yellow flowers50
Borisii. Neat tufts of evergreen foliage. Orange-scarlet flowers on branching stems of 8 to 12 in. Very beautiful35
Bulgaricum. Dark green foliage. Orange-yellow flowers on 8 in. stems50
Fire Opal. The large, wide open flowers are shaded from scarlet to crimson. 18 in.50
Heldreichii. Dwarf species. Deep orange-red flowers35
Lady Stratheden. Rich golden yellow flowers35
Sibiricum. Large coppery-scarlet flowers on 10 in. stems35

GLOBULARIA — Partial shade. Leaf soil and sand.

Cordifolia. Mats of small evergreen heart-shaped foliage. Pretty blue flowers35 - .50
Nana. Close-creeping with violet-blue fluffy balls. The smallest of the family. Rare75
Tricosantha. Globe-like heads of deep blue flowers. A very fine alpine35

GOODYERA PUBESCENS—Interesting and attractive white veined nearly prostrate leaves. Spikes of white flowers in August. Full shade. Acid soil

.35

GYPSOPHILA — Full sun.

Cerastioides. Dwarf compact plant. White flowers veined with red35
Repens. Trailing plant with blue grey mats. White flowers35
Rokejeka. Rose coloured Baby's Breath. Tall and graceful with rather large flowers. All summer35

HABENARIA CILIARIS — Fringed, orange flowers crowded on 12 in. stems. Very showy

.60

HABERLEA FERDINAND COBURGI — Gloxinia-like lavender flowers, speckled inside with gold. Rosettes of green, leathery leaves

1.50

HEDERA CONGLOMERATA. Dwarf Ivy with tiny twisted foliage

.75 - 1.00

Minima. Dwarf Ivy. Tiny close growing foliage

.75 - 1.00

Variegata. Dwarf variegated Ivy. Fine among rocks

1.00

HELIANTHEMUM — Full sun and light loam.

Citrinum. A compact growing type with golden yellow flowers. Spring and again in autumn35 - .50
Crimson Lake. Deep flame coloured blooms50 - .75
Cupreum. Loose spreading mats 4 to 5 in. Orange yellow flowers. Blooms in spring and again in fall35 - .50
Fireball. Bright scarlet flowers. Double35 - .50
Praecox. Grey-green foliage with beautiful large pale pink flowers; golden centers35 - .50
Speciosum. Makes a very flat mat with procumbent stems. Large soft pink blossoms; 1¼ in. across; golden centers ..	.50

The Bride. Very pale yellow flowers with brilliant golden stamens35
Double Orange. Large double orange flowers. Fine50
Wendell Rose. A very fine variety with large rosy blooms ..	.50
HELICHRYSUM BRACTEATUM — Bronzy gold heads. 18 in. Fine50
HEPATICA TRILOBA — Blunt leaves. Blue flowers on 4 to 6 in. stems. Rich, loam in shade40
HERNIARIA GLABRA — Masses of dark green foliage. Good for carpeting40
HEUCHERA — Partial shade. Leaf soil.	
Brizoides. Dwarf habit. Pale rose flowers35
Micrantha. Panicles of small downy pink flowers50
Pluie De Feu. Very large scarlet flowers. Free flowering. 18 in.	.50
Rosamonde. Large rosy bells on tall branching stems35
Sanguinea Coral Bell. Coral pink flowers on 18 in stems35
HOUSTONIA COERULEA — Compact tufts with pale blue flowers on 4 in. stems25
HUTCHINSIA AUERSWALDII —Cushions of glossy emerald green Dainty white flowers. Shady, moist situation50
HYPERICUM	
Coris. Heath-like blue foliage. Golden flowers. Rare50 - .75
Fragile. Bright yellow flowers. Fine Alpine species35
Moserianum. Shrublet. Bronzy green foliage. Large golden blossoms50 - .75
Olympicum. Narrow, blue-grey foliage. Immense golden flowers. Long blooming season75 - 1.00
Patulum Henryi. Fine yellow flowers. Shrubby type. Introduced from China75 - 1.00
Polyphyllum. Dwarf spreading habit. Large yellow flowers	.50 - .75
Repens. Bright yellow flowers. Prostrate growth35 - .50
Reptans. Trailing foliage. Bright yellow flowers35 - .50
Tomentosum. Dense oval woolly foliage. Large yellow flowers. Rare50 - .75
IBERIS	
Gibraltarica. Large heads of lilac pink flowers. Dwarf evergreen bush35
Sempervirens. Spreading evergreen mats. Pure white flowers	.35
Snowflake. Very fine. Glistening white flowers35
INCARVILLEA	
Grandiflora. Brilliant rose flowers. Good rock garden plant	.50
Grandiflora Brevipes. Large deep red flowers on short stems. Very dwarf50
INULA — Full sun, sandy soil.	
Ensifolia. Narrow leaved tufts. Golden blossoms. Dwarf; everlasting25
Royleana. Dwarf habit. Orange flowers25

IRIS

Cristata. Large lilac flowers. 6 in.35
Dichotoma. Fan shaped foliage, branching stems covered with white and lavender flowers. August and September ..	1.00
Gracilipes. Dainty Japanese species. Lilac blue with golden crest	1.25
Reticulata. Beautiful velvety purple flowers flecked with gold	1.00
ISATIS GLAUCA — Showers of small golden flowers in Summer. 3 to 4 ft.50

JASIONE

Montana. Heads of small delicate blue fluff on slender stems	.35
Perennis. Miniature species. Heads of pale blue on branching stems25

LAMIUM MACULATUM — Beautiful evergreen plant with variegated leaf. Procumbent stems ending in flower heads of lavender. Continuous bloomer. Sun or shade35
---	-----

LAVENDULA ATRO-PURPUREA — Silvery-grey foliage with tiny spikes of purplish-blue flowers. 5 to 10 in. Very fine50 - .75
--	-----------

Lewisia Howellii

LEONTOPODIUM — Full sun, poor soil.	
Alpinum. (Edelweiss) White flannel flowers25
Sibiricum. Large flowered form of Edelweiss40
LEUCOCRINUM MONTANUM — A bulbous plant with narrow, grass-like foliage and clusters of stemless fragrant white flowers. Sand Lily. Very showy35

LEWISIA — Our plants of Lewisias are very fine specimens. Lewisias should have good drainage and partial shade. Sand leaf soil and good loam

Columbianum. Rosettes of spiny foliage. Sprays of pale pink and white flowers50

Columbianum Rosea. Rosy-lavender flowers. Long blooming period35 - .50

Finchii. Large, fleshy rosettes. Beautiful soft pink flowers with deep pink stripe down the center of each petal. Very fine75

Heckneri. Ovate dark green leaves delicately margined with stiff hairs. Salmon rose flowers75

Howellii. Rosettes of fleshy, crinkly leaves and charming buff coloured flowers. Petals striped with rose colour. One of the best75 - 1.00

Leeana. (Evergreen Lewisia) Slender pine-like leaves. Clusters of small magenta flowers75

Oppositifolia. Profusion of white cup-like flowers50

Rediviva. Long needle leaves. Large waxy pink flowers. Deciduous species50

Tweedyi. The largest flowered Lewisia. Waxy apricot flowers, 2 to 3 in. across75 - 1.00

LIATRIS PUNCTATA — Slender spikes clustered with purple flowers, 12 in. The finest of the dwarf Liatris. Sunny place. Poor soil. Rare. Autumn75

LINARIA

Alpina. Neat, trailing blue grey foliage. Flowers of violet and orange. 3 in. All summer. Rare50

Alpina Rosea. Glauous green foliage forming a close growing trailing mass covered with tiny orchid-like blooms in lavender with rose coloured centers. All summer50

Cymbalaria. Trailing species. Lavender blossoms35

Dalmatica. Ornamental glauous blue foliage. Bright yellow flowers. An unusual and distinct plant75

LINUM

Alpinum. Pretty flax with large blue flowers. 6 in.35

Flavum. Large golden flowers on stems 8 to 10 in. Beautiful hardy perennial for rock garden40

Narbonense. Large blue flowers on graceful stems. Very fine50

LIPPIA REPENS — Pale purple flowers. Miniature trailer .. .35

LITHOSPERMUM

Graminifolium. Long, narrow grass-like foliage. Bright blue flowers. 12 in. Rare and lovely Alpine 1.00

Petraeum. Long silvery foliage. Sprays of bright blue flowers75

Prostratum Heavenly Blue. Fine, sub-shrubby prostrate species. Deep, sky-blue flowers75 - 1.00

LOBELIA CARDINALIS. Green foliage. Fine scarlet flowers on 2 to 3 ft. stems. Autumn25

LOTUS CORNICULATUS — Umbels of yellow. A hardy trailer for covering dry banks. Very dainty and attractive .50

LYCHNIS

Alpina. Neat tufts of narrow leaves. Pink flowers25

Arkwrightii. Hybrid. Beautiful flame coloured flowers on 6 to 8 in. stems35

Lagascae. Beautiful dwarf alpine with bright rose flowers; white center. Evergreen habit50

Lapponica. Bright rose flowers. 6 in.50

LYGODIUM PALMATUM — Hardy climbing fern. Very rare. Peaty soil. Shade 1.00

MAZUS PUMILIO — Forms a dense carpet of dark green leaves studded with small orchid-like flowers. 1 in.35

MECONOPSIS

Cambrica. (Welsh Poppy). Pretty yellow flowers. Sun75

Integrifolia. Huge soft yellow flowers. Beautiful poppy from China 1.00

Nepalensis. Magnificent rosette of foliage. Dusky purple flowers 1.00

Paniculata. Spire of pendent golden flowers. Beautiful plant 1.00

Pratti. Lovely blue flowers. Easy doer75

Rigidiuscula. Lovely blue flowers. Rare 1.00

Rudis. Leaves with spiny hairs. Beautiful blue flowers with a fluff of golden anthers in the center 1.00

Wallichii. Blue Himalayan Poppy. Moist shade. Rare 1.00

MENTHA REQUIENI — Forms a dense green carpet with tiny lavender flowers. Mint-scented leaves35

MENZIESIA

Polifolia. Compact, evergreen shrub with long racemes of large purple flowers50 - 1.00

Polifolia Alba. Heath like shrub. Large white flowers50 - 1.00

MERTENSIA

Lanceolata. Narrow leaves with down on the upper surface. Lovely clear-blue flowers75

Oblongifolia. Long, narrow blue-grey foliage. Lovely blue flowers on 6 to 12 in. stems75

Primuloides. Dwarf plant. Pretty violet blue flowers. 6 in. .. .75

Virginica. Grey foliage. Rich sky-blue flowers on 2 ft. stems .35

MORINA LONGIFOLIA — Tall prickly stems bearing tubular white flowers, changing to purple. 2½ ft. Very fine .. .35

MORISIA MONANTHOS — Pointed triangular leaflets. Bright golden-yellow flowers. Full sun. A gem 1.00

MUEHLENBECKIA NANA — A tiny creeping plant with foliage resembling Maiden-Hair fern. From New Zealand. 2-3 in.50

MYOSOTIS

Alpestris. Pretty blue flowers on short branching stems25
Alpestris Indigo Compacta. Large flowers. Compact-growing. Very free flowering35
Alpestris Robusta Grandiflora. Large fleshy leaves. Enormous soft azure blue flowers on short branching stems35
Palustris Graf Von Waldersee. One of the best. Flat pale blue flowers in great profusion on stems 5 to 6 inches. Half shade50
Rupicola. Small tufts of leaves almost hidden by large blue flowers. Very fine50
Welwitschii. Pale blue flowers. 6 in.60

NEPETA NUDA — Silver-grey foliage. Spikes of blue flowers. Not a spreader40
--	-----

NIEREMBERGIA RIVULARIS — Carpets of dark green leaves. Profusion of large white flowers on 1 in. stems. All summer. Full sun. Sandy soil35
--	-----

OENOTHERA — (Evening Promrose)

Caespitosa. Huge, fragrant flowers of pure white which fade into a blush pink. 4 in. Very fine50
Fraseri Youngi. Masses of fine yellow. Likes moisture35
Fruticosa. Forms a close growing mat with sprawling flower stems 4 to 6 inches. Brilliant golden flowers with very pro- nounced stamens. Flowers about 2½ inches across35
Fruticosa Major. Glossy leaved plant with golden-yellow flowers35
Missouriensis. Fine trailer. Enormous soft yellow flowers ..	.35
Odorata. Large flowers of pale gold40

OMPHALODES

Cappadocica. Neat tufts of oval leaves. Graceful sprays of large forget-me-not flowers. 6 in.75
Verna. Large heart-shaped leaves. Masses of deep azure for- get-me-not-like flowers50

ONOSMA

Albo-Roseum. Silvery grey leaves. Large white flowers that fade to pink. Rare. Full sun75
Cassium. Erect stature and bristly foliage. Enjoys a warm, sun-baked spot50

OREOCARYA GLOMERATA — Spikes of neat forget-me- not like white flowers	1.00
---	------

OROPHACA CAESPITOSA — Silvery mats not over an inch and a half high. Lovely lavender pea shaped flowers in spring75 - 1.00
---	------------

PACHYSTIMA CANBYII — Low evergreen shrub. Small red flowers50 - 1.00
--	------------

PAPAVER

Alpinus. Tufts of finely cut foliage. Flowers of white, rose, yellow or orange. Dwarf species25
Thibetica. Rare and beautiful type40
PELLEA Densa — (Cliff Brake) Tiny fern. Partial shade or sun. Delightful when used with bulbs50

PENTSTEMON

Albidus. Many spikes of white blossoms with nearly black stamens. 12 in. May and June75
Erianthera. Stems nearly a foot high ending in dense spikes of red-violet blossoms. August50 - .75
Gracilis. Amethyst flowers	1.00
Newberryi. Leathery little round leaves. Sprays of bright scarlet flowers close to the stem. 2-3 ft. All summer50
Procerus. Mats of bright green leaves. Heads of deep blue flowers on 12 in. stems50
Rupicola. Greyish foliage. Red flowers on 3 to 4 in. stems50
South Gate Gem. Handsome spikes of crimson flowers50

PHLOX

Adsurgens. Evergreen trailer with bright green leaves. Large flowers of salmon-pink varying to white on 3 to 6 in. stems. Most beautiful of the family50 - .75
Amoena. Trailer. Grows 4 in. high. Bright pink flowers. Blossoms off and on all summer and fall35
Arendsi Hanna. Rose-coloured blooms. 10 to 12 in. Continuous bloomer40
Arendsi Hilda. Pale lavender flowers with rose centers. Very fine all summer and fall40
Arendsi Louise. Pale lavender flowers. 10 to 12 in. Profuse bloom all summer and fall40
Brittonii. Lovely new variety. Tiny bushlets covered with star shaped white flowers50
Cowardi. Rare type with lovely crimson blooms most of the summer50
Diffusa. Fine type with lavender flowers50
Divaricata Laphamii. Lovely lavender flowers35
Hoodii (Planitiarum) Very neat and compact with slender, prickly leaves. Large white blossoms. Rare75
Stolonifera Reptans. 6 inch stems; at their top is a lovely branched head of large rose blossoms35
Subulata. Wide mats of green. Rosy-lilac flowers20
Subulata Apple Blossom. Fine pale pink blossoms35
Subulata Atropurpurea. Compact dark green foliage, deep red flowers50
Subulata Nelsoni. White blossoms tinted lavender25
Subulata The Bride. White flowers with pink eye25
Subulata Vivid. Salmon-rose flowers. Very fine35
Subulata Wilsoni. Pale lavender with blue eye25

PHYTEUMA — These plants are rare and interesting. Most attractive in the rock garden. Full sun. Sand and leaf soil.

Orbiculare. A pretty dwarf Alpine with graceful balls of deep blue flowers60

Scheuchzeri. Deep violet flowers. Neat foliage50

Spicata. Large heads of cream-coloured flowers75

PLATYCODON MARIESII — Very fine dwarf variety. Enormous deep blue flowers. Full sun. Midsummer35

POLEMONIUM

Carneum. Ferny foliage. Cream and rose coloured bells35

Reptans. Ferny foliage. Lovely blue flowers35

Phyteuma

POLYGONUM VACCINIFOLIUM — The trailing masses of glossy green foliage disappear, when Autumn comes, under a profusion of lovely rosy-pink spikes. 2 to 3 in.50 - 1.00

Affine. A carpeting plant. The narrow evergreen leaves turn bronze in Autumn. Pink flowers on 6 in. stems from August to October50 - .75

PLUMBAGO LARPENTAE — A lovely plant covered with azure blue stars in early Autumn. The leaves turn bright red at the same time. 9 in.35

POTENTILLA

Alpestris. Low-growing plant with showers of very large golden-yellow flowers. Easy of culture in light soil in full sun50
Argyrophilla Insignis. Beautiful foliage. Amber coloured flowers in great profusion50
Calabra. Beautiful silvery finely cut foliage with golden blossoms. Very fine50
Cinerea. Minute plant. Compact evergreen creeper with dainty yellow flowers35
Hirta. Yellow flowers on 2 ft. stalks35
Nepalensis. Brilliant rose-crimson flowers40
Nevadensis. Compact grey-green tufts. Brilliant yellow flowers40
Nitida. Large rosy flowers. Silvery foliage. Full sun. Poor soil75
Salmon Beauty. Brilliant coppery-salmon flowers. Very valuable for the rock garden40
Tomassinia. Grey-green mats. Yellow flowers50
Tonguei. Lovely flame coloured double flowers. Rare and very fine	1.00

PRIMROSE

Double Lavender. Beautiful hybrids. Profusion of flowers ..	1.00
Double White. White form of above	1.00

PRIMULA

Auricula. The true Alpine species. Sweet scented yellow flowers35
Auricula Gigantea. Very large flowering variety50
Auricula Hybrids. A select strain of the well-known Auricula. Very fine mixture50
Beesiana. Velvety purple with a distinct yellow eye, in whorls. Very free flowering50 - .75
Bulleyana. A beautiful species from Yunnan bearing whorls of rich orange and buff flowers50 - .75
Bulleyana Hybrids. Spikes of flowers of various shades of rose75
Capitata. Leaves covered with white farina. Rich violet flowers. Height 9 in. Very fine50
Capitata Mooreana. Deep purple flowers. Leaves covered with white farina. 12 in.60
Cashmeriana Hyb. Leaves heavily dusted with meal on under side. Large globular heads of flowers ranging from pure white, through mauve to purple50 - .75
Cashmeriana Alba. Large pure white flowers60
Cashmeriana Rubra. A magnificent variety. Glowing ruby colour75
Chionantha. A handsome species with creamy white flowers and lemon-coloured tube. It likes good cultivation in well drained soil and shady situation. 1½ ft.75 - 1.00

- Chrysopa.** Lilac-blue heads on slender stems 1 ft. New and distinct 1.00
- Chungensis.** Orange flowers with yellow center. Very fine .75 - 1.00
- Cockburniana.** A lovely species from Western China with umbels of brilliant orange-scarlet flowers. Unique and beautiful75 - 1.00
- Conspersa.** Chinese alpine with purple flowers 1.00
- Cortusoides.** Neat species with rosy-purple blossoms30

Double Flowering Primrose

- Denticulata Cashmeriana.** Species from the Himalayas with large globular heads of flowers varying from white to deep rosy-lilac. 12 in.50
- Denticulata Grandiflora Hybrids.** Flowers in various shades. Larger than type50 - .75
- Elatior.** The true or Bardfield Oxlip. Finest strain of Bunch Primrose. Large flowers of wonderful shades of yellow .50 - .75

Farinosa. Pink flowers. Height 6 in.60
Florindae. New Chinese species. Large clusters of primrose yellow flowers. A giant <i>P. sikkimensis</i>75
Forrestii. Beautiful Chinese species. Golden-yellow flowers. Rare	1.00
Froncosa. Mealy white foliage. A rare species with rosy lilac flowers35
Glycosma. A handsome species from Yunnan, having deep purple flowers with golden centers. Shade and moisture .75 - 1.00	

*Primula Veris*

Japonica American Beauty. Deep crimson flowers in long spikes. 1 ft.35
Juliae. Miniature species with lovely rosey flowers. Early flowering50
Juliae, Dark Form of Above. Purple flowers. Very choice ..	.75
Lichiangensis. Deep rose flowers. Large hairy leaves	1.00

Microdonta. Loose head of wide hanging bells in lovely shade of soft yellow. Likes deep rich and boggy soil	1.00
Microdonta Alba. A beautiful variety with fragrant white flowers	1.00
Microdonta Alpicola. Pale primrose-yellow flowers. Very fragrant	1.00
Officinalis. Very pretty species. Flowers range from pink to mahogany. Wild form for shady situations35
Polyantha. Fine large flowers in beautiful colours. Choicest mixed35
Red Hugh. Intense fiery-red flowers75
Rosea. Rosy carmine. Height 9 in.75
Secundiflora. Lovely crimson bells on 12 in. stems75
Sieboldii. Scalloped oval leaves. Red flowers. Height 12 in.	1.00
Sikkimensis. The Himalayan Cowslip. Drooping pale yellow flowers. Very fragrant50
Sino Purpurescens. Deep purple flowers in loose trusses. ..	.75
Spectabilis. Rich rosy flowers. Rosettes of glossy marbled leaves. Alpine species	1.00
Veris. Hybrids of the yellow cowslip. The clustered drooping flowers range in colour from crimson to yellow and pure white35
Veris Acaulis Hybrids. Hybrids of the yellow cowslip35
Veris Coerulea. Lovely blue hybrid75
Veris Elatior Polyanthus. Finest strain. Large flowers. Brilliant colours50
Vulgaris. Pale yellow common primrose35
Vulgaris Elatior (Munstead Strain). Magnificent strain Bunch Primroses. Flowers are very large and of wonderful shades of yellow; also pure white50
Waltoni. Very fine primula. Deep violet-red bells. Rare. New75
Wulfeniana. Solid flat mass of glossy foliage. Very large rosy flowers. Rare. Lime	1.00
PULMONARIA	
Angustifolia Azurea. Low-growing herbaceous plant with numerous heads of sky-blue flowers with golden centers. Very choice. Shade50
Saccharata Mrs. Moon. Marbled foliage. Lovely salmon pink flowers. Fall75
RAMONDIA PYRENAICA — Deep green crinkly-leaved rosettes. Large lilac-blue flowers with golden centers. Very choice. Shade	1.25
RANUNCULUS	
Montana. Large golden flowers	1.00
Pumilio. Very dwarf type with large, beautiful golden flowers in early spring	1.50
RAOULIA AUSTRALIS. — Mats of glistening silver. Warm sandy soils in full sun. Less than an inch high. Rare	1.00

RHODODENDRON

Fastigiatum. 14 in. Lavender blossoms. Very fine	2.50
Ferrugineum. Beautiful species. Scarlet flowers	1.50 - 2.00
Racemosum. Racemes of beautiful pale pink flowers	2.50

*Ramondia Pyrenaica*

ROSA — The following list of Roses are all dwarf and a great addition to the rock garden. They bloom throughout the summer and autumn. Hardy.

Folosa. Dwarf white rose	1.25
Nitida. Pretty, low-growing bush, rarely exceeding 18 inches, and with handsome glossy foliage. Bright rosy-red flowers	1.50
Polyantha Nana. Dwarf, charming pink blossoms	1.25
Roulettii. Very dwarf. Pretty pink blooms all summer. Keeps its leaves all winter	1.50

- ROSCOEA CAUTLIOIDES**—(August Beauty). Narrow leaves of glossy green which shoot in long pointed lances from the base. Large pale yellow flowers. Very fine. Rare 1.25
- RYDBERGIA GRANDIFLORA** — Large daisy-like yellow flowers. 6 in. Sun50

Rhododendron Ferrugineum

- SAGINA SUBULATA**—Mossy ground cover for shade. White Starry flowers in May and June35
- SANTOLINA INCANA** — (Chamaecyparissias) Low spreading bushes with woolly silver-grey leaves. Golden flowers on slender stems in the height of summer. Fragrant herb. Sun35 - .75
- SAPONARIA OCYMOIDES** — Trailing plant from the Swiss mountains. Sheets of rosy-pink flowers. Sun25
- SAXIFRAGA** — (Saxifragaceae). No rock garden is complete without a collection of these interesting and beautiful alpine. Their requirements are good drainage and a soil composed of leafmold, loam, a little well decayed cow manure and sand. All types and varieties require partial shade in the Eastern section of this country. They should receive a good top dressing of the above mentioned soil mixture in the spring and autumn, and a light covering of salt hay during the winter.

EUAIZOONIA GROUP (Encrusted Varieties). These form rosettes of narrow and spatulate shaped leaves, heavily encrusted with lime in most cases, and are extremely ornamental in the rock garden

Aeizoon Alba. White blossoms. 4 to 6 in.35
Aeizoon Rosea. Sprays of lovely pink blossoms. 9 in. Rosy form of above50

Rosa Roulettii—Tiniest Rose in the World

Aeizoon Balcana. Pale green leaves. Sturdy red stems about five inches high bearing large flowers densely covered with crimson dots50
Aeizoon Baldensis. Tiny form with neat cushions. Creamy flowers75
Aeizoon Churchillii. Pretty hybrid. Silvery beaded leaves ..	1.00
Aeizoon Densa. Minute rosettes. Very silvery40
Aeizoon Flavescens. Yellow flowers. Choice50
Aeizoon Lagraveana. Neat, compact rosettes, making large mats. Ruddy stems, 6 in. high with four to six wax-like creamy-white flowers50

Aeizoon Minima. Silvery miniature foliage. White flowers. One of the best of the very small types. Very scarce	1.25
Altissima. Handsome wide rosettes of blue-grey, silver-beaded leaves. Creamy white flowers in branching pyramids of blossom75
Brevifolia. Small silvery rosettes. Short spikes carrying tiny flowers60
Cartilaginea. Rosettes of sharp-pointed leaves. Pink-white flowers produced in sprays six to nine in. high. Rare75
Catalaunica. Silvery leaves. Pure white flowers sometimes spotted with red75
Cochlearis. Tiny silvery rosettes of tongue-shaped leaves. White flowers. Fine60
Cochlearis Longifolia. Beautiful hybrid larger than the type. Fine white plumes75 - 1.00
Cochlearis Minor. Tiny domes of silvered rosettes. White flowers	1.00
Cotyledon. From the wide rosettes spring tall pyramidal sprays of white flowers, 18 to 24 in. Very fine75 - 1.00
Cotyledon Caterhamensis. 3 ft. sprays of white flowers heavily spotted with red75 - 1.00
Cotyledon Longifolia. Silver rosettes. Splendid spires of white flowers	1.00
Cotyledon Montavoniensis. Glossy, broad-leaved rosettes. Large plumes of snow white flowers with red stems	1.25
Cotyledon Pyramidalis. Broad-leaved rosettes. Large spires of pure white flowers, flecked with pink75
Crustata. Neat silver foliage60
Dr. Ramsey Hyb. Silvered rosettes. Snow-white sprays. Very fine. Scarce	1.00
Elliott's Silver. Splendid hybrid with heavily silvered rosettes in close clustered form50
Engleri. Rosettes of silvery leaves. Plumes of white flowers	1.00
Gaudini. Large leathery rosettes, often tinged with red. Sprays of pink spotted flowers50
Hostii. Handsome rosettes of long leaves with toothed margins. Panicles of creamy white flowers spotted with pink	.50
Lingulata Superba. Mats of large and out-curved leaves, long and narrow with a beautiful edge of silver beading. Tall sprays of white stars50 - .85
Lingulata Albida. Distinct form. White flowers75
Lingulata Bellardi. Rare treasure. Beautiful white flowers ..	.50
Longifolia. Handsome rosettes of silver grey. Large spires of white blossoms from 2 to 3 ft. tall. "Queen of the Saxifrages"	1.00 - 2.00
Longifolia Cochlearis. Huge silvered rosette. Large branching panicles of white flowers	1.25
Longifolia Hybrida. Lovely hybrid intermediate. Branching rosettes75 - 1.00

Longifolia Hybrid "Lownii". A beautiful hybrid. Tall sprays of pinky-white flowers85
Longifolia Major (Hyb.) Large silver rosette. Regal spires of white blossoms	1.00
Macnabiana. Fine spikes of white flowers with a ring of dark red near the base35

Saxifraga—Cotyledon Pyramidalis

Mutata. Rosettes about 4 in. in diameter. Copper-coloured flowers on foot high stems75
Paradoxa. Long, narrow iron-grey foliage edged with silver beading. Interesting and very fine	1.00
Portae. Close-set rosettes of narrow leaves widening at the tip. The stems are short and hairy bearing small creamy flowers	1.00

Prolifera. Enormous rosettes with beautiful panicle of pale pink star shaped blooms	1.00
Pyrenaica. Pointed leaves. Short plumes of white flowers ..	.50
Valdensis. Small rosettes of spatulate leaves and white flowers on stems of an inch or two in length. Choice75
Wampoles Hybrid. Fine large rosettes heavily silvered. One of the best	1.00

Saxifraga Faldonside

KABSCHIA GROUP (CUSHION ROCKFOILS). Small spiny foliage in shades of lovely blue grey, to be used in moraine, or crevice between two rocks. All are early bloomers, and like warm, half sunny situation, in gritty soil and leafmold.

Ambigua. Flower stems about two and a half inches high, branching near the top and bearing flowers of different shades of red	1.00
Apiculata. Mats of green spiny foliage. Primrose yellow blossoms50
Apiculata Alba. White from of the above50
Boryi. Rosettes of short, spoon-shaped leaves. Large white flowers borne on one and a half inch stems. Very fine	1.00
Boydii. Attractive deep yellow flowers. Rare and choice	1.25
Burseriana Magna. Short, sturdy growth and large white flowers. One of the best	1.25

Elizabethae. Wide yellow-green mats. Soft yellow flowers ..	.60
Faldonside. Large flowers of a pale shade of yellow with rounded petals having a cramped margin. Very beautiful and choice	1.50
Ferdinandi-Coburgi. Neat cushions of silvery-grey. Bright yellow flowers50
Godseffi. Blue-grey rosettes. Yellow flowers75
Haagei. Rosettes of dark green spiny foliage. Small yellow flowers on short stems60
Irvingii. Cushions of dense, blue-grey rosettes. Hybrid with pink flowers. 1 in. A gem	1.50

Saxifraga Petraschii

Marginata. Fine, compact rosettes. Large white flowers50
Myra. Raised by Reginald Farrer probably from Scardica and Lilacina. Very dwarf with fine rosey blossoms. Heavily encrusted foliage. Rare and fine	1.50
Obristii. A rare hybrid with large white flowers	1.25
Petraschii. Tight silvery cushions. Large white flowers. Choice	1.25
Sancta. Wide masses of short green leaves with broad edges of silver beading. Stems of 2 or 3 in. Carrying loose trusses of bright yellow flowers50 - 1.00
Scardica. A dense growing plant with oblong leaves. The loose heads of white flowers are borne on stems from 3 to 4 in. long	1.00

DACTYLOEIDES GROUP (MOSSIES). — These form cushions and mossy mats. They are especially nice for place in damp, shady part of rock garden. They like plenty of leafmold and appreciate an extra mulch in spring and fall.

Aphylla. Forms a compact little cushion. The flower stems are an inch or so long and bear a single yellow flower ..	.75
Apple Blossom. Beautiful hybrid. Mossy foliage. Pink flowers	.75
Bathoniensis. Fine mossy hybrid. Charming rosy-pink blooms	.50
Ceratophylla. Mats of shining foliage. Large, pure white flowers on branching stems60
Caespitosa. Dense green tufts. Branching stems of 6 to 9 in. carrying pure white flowers40
Decipiens Alba. Foliage with broad, blunt lobes. White flowers35
Decipiens Hybrid Sp. No. 5. Fine hybrid50
Decipiens Hybrid Sp. No. 10. Rare and very fine hybrids50
Guildford Seedling. Bright crimson hybrid. One of the best	.50
H. S. Stokes. Compact habit. Bright carmine flowers50
James Bremner. Large, white flowered Mossy50
Obscura. Compact carpet of bright green foliage. White flowers60
Red Admiral. One of the best Mossies50 - .75
Schoen Von Ronsdorf. Deep red flowers verging on crimson	.40 - .60
Wallacei. Masses of rich green leaves. Pure white flowers of enormous size. One of the finest mossies50 - 1.00
ROBERTSONIANA GROUP (LONDON PRIDE). — This section embraces the well known London Pride and its immediate relatives. They require shady, moist position and all have attractive green foliage and delicately coloured flowers. This group requires shade and moisture.	
Andrewsii. Rosettes of bright green leaves. Spikes of white flowers spotted red50 - .75
Capillipes. Green foliage and white flowers speckled with pink. 6 in. stems75
Cuneifolia. Rosettes scalloped at the edge. Stems 3 in. high with a dainty shower of white stars with a yellow dot at the base of each petal50 - .75
Geum. Round, leathery leaves. Showers of pretty London Pride flowers. 9 to 12 in.	1.00
Hirsuta. Leaves fringed at the edge Pearl-white flowers75
Umbrosa. (London Pride). Dark green foliage. 15 in. sprays of pink flowers35 - .50
Umbrosa Primuloides. Mounded rosettes of dark wavy-edged foliage. 8 in. loose showers of soft pink flowers on pink stems40

- DIPTERA GROUP (TWO WINGED ROCKFOILS)** The members of this section are characterized by having petals of unequal length, usually two very long, and two short ones. They are natives of Japan and China. They are practically hardy if planted in a well sheltered position, and like a rich, moist, well-drained soil.
- Sarmentosa.** Attractive white and green mottled leaves. White flowers. June and July. Shade and moisture75
- TRACHYPHYLLUM GROUP (ROUGH-LEAVED ROCK-FOILS)** A group of low growing prostrate species. They require a somewhat moist position in stony soil.
- Bronchialis.** Grey-green leaves. White flowers with yellow spots at base of petals60
- Virginensis.** Rosettes of toothed oval leaves. Showers of little white stars25
- MEGASIA GROUP (LARGE LEAVED ROCKFOILS).** These are known from all other Saxifrages by their massive size and breadth of leafage, and most of them being an evergreen character are very effective as hardy foliage plants at all times of the year. Plant in sheltered positions.
- Cordifolia.** Glossy leathery leaves. Pink flowers on 12 in. stems50
- Megasia Hybrida.** Fine mixture of the large leaved Saxifrages75
- PELTIPHYLLUM GROUP (UMBRELLA - LEAVED ROCKFOIL).** There is only one species in this section. It has very handsome foliage and for this purpose is well worth growing in groups by the waterside, in woodlands, or wherever it can get sufficient moisture for developing its large leaves. It is very hardy and vigorous, and although it appreciates a moist position, it will accomodate itself in much drier situations.
- Peltata.** Large umbrella-shaped leaves on 3 ft. stems. A native of California. Likes a moist situation. Rich soil75
- SCABIOSA GRAMINIFOLIA** — Silvery leaves. Flowers of pale blue or soft rose. 8 in. A fine dwarf50
- SEDUM** — Sun loving plants, excellent for walls, dry banks, stepping stones, and rock gardens. The majority are well worth a place for the low carpets of richly coloured freshy leaves alone.
- Acre.** Evergreen carpeter. Yellow flowers25
- Album.** Masses of grey-green leaves. White flowers on 6 in. stems25
- Altissimum.** Yellow flowers on 9 in. stems. Fleshy leaves .. .25
- Anacampseros.** Leathery, grey-green leaves. Dull purple flowers50
- Anglicum.** Bluish-grey foliage. Branched heads of pearl-white flowers on 3 in. stems25
- Brevifolium.** Very dwarf. Brilliant green leaves. Pearl-white flowers35

Dasyphyllum. Small blue foliage. Sprays of rosy stars25
Divergens. Small green rosettes. Yellow blooms40
Ewersii. Blue-grey leaves. Crimson blossoms35
Ewersii Hayesii. Compact form. Purple flowers50
Fosterianum. Brilliant golden flowers on 10 inch stems35
Golden Acre. Neat and evergreen with golden mats35
Gracile. Smooth, cylindric green leaves. White flowers with red anthers50
Hispanicum. Soft blue-grey foliage. The white flowers are touched with pink25
Kamschaticum. Trailing habit. Yellow flowers25
Lineare Variegata. A lovely trailer with foliage variegated; blue and cream colour25
Lydium. Bright green foliage which turns red in poor soil ..	.25
Magellense. Bright green, flat leaves. Pure white flowers ..	.35
Maximowiczii. Bright golden flowers on 12 inch stems35
Middendorffianum. From China. Reddish-brown leaves. Bright yellow flowers35
Mixed Varieties. Our selection	doz. 1.50
Moranense. Wiry red stems. White flowers40
Nevi. Blue-grey rosettes. Pointed-petalled white stars. Choice	.35
Oregonum. Bright green rosetted foliage. Heads of yellow- ish-pink. Very fine50
Oreganii. New. Like small grey roses on bare stems. Fine	.75
Pulchellum. Bright green foliage. Rose-pink flowers35
Pilosum. Rare. Tight rosettes. Large rose coloured flowers	.50
Reflexum. Greyish rosettes of narrow leaves. Golden yellow flowers25
Rupestre. Blue-grey leaves. Golden flowers35
Sarmentosum. Creeping variety, about 4 in. high, with yellow flowers in summer20
Sempervivum. Fat, fleshy dark green leaves deepening to bronze, resembling a Sempervivum of the Calcareum group. Velvety bell-shaped flowers of scarlet	1.00
Sexangulare. Mats of gold. Fine for rock walls25
Sieboldii. Lovely silvery blue foliage. Trailing velvety. Bright pink flowers in heads. Autumn. Shade35 - .50
Spathuifolium. Evergreen rosettes tinged with red. Branched heads of bright yellow flowers. Very fine50
Spathuifolium Purpureum. Purple leaved variety. Very hand- some. Rare75
Spectabile. Fleshy, glaucous leaves. Huge panicles of pink flowers. 2 ft. Autumn35 - .50
Spurium. A creeping plant with broad leaves and starry flowers of bright pink. Autumn25
Tenuifolium. Clustered spiky mats of pale green with white star shaped flowers. Rare50
Yosemitense. Rosettes of broadly spathulate green to reddish leaves. Cymes of orange flowers on 4 in. stems. New. Rare and very fine75 - 1.00

SEMPERVIVUM. Interesting plants of easy culture for sunny situations. Soil should be a light loam containing sand, well rotted manure, leafmold and stone chips. The majority of these plants change their form to some extent in different situations making it rather difficult to classify them correctly.

Acuminatum. Small type. Pale green sharp pointed rosettes	.35
Alberti. Pale green rosettes. Rose-coloured flowers	.50
Alpha. Very fine and rare type. Large rosettes	.75
Arenarium. Small type with green rosettes. Large cream coloured flowers on 2 in. stems	.25
Arachnoideum. Pale purple flowers on cobweb covered rosettes	.25 - .50
Arachnoideum Rubrum. Medium rosettes. Dark pink	.40
Arachnoideum Minimum. Smallest of the cobweb types	.50
Atroviolaceum. The largest and finest of this genus	1.00
Beta. Rare. Large rosette of peculiar habit. Very interesting. New	.75
Blandum. Large rosettes. Leaves crimson except for the edges and tip which are green. Light rosy purple flowers	.75
Braunii. Small rosettes of pointed leaves. Slender 4 in. stems carrying a cluster of bright yellow flowers	.25
Doellianum. Loose rosettes. Dull pink flowers	.35
Dolomiticum. Small dense rosettes. Acute leaves with hairy edges. Broad rose petals	.35
Fauconettii. Small rosettes. Spidery filaments at the top of the leaves	.40
Fimbriatum. Small rosettes of pointed leaves. Bright pink flowers	.25
Funki. Bright emerald green rosettes even in winter. Large, fringy flowers of pale pink	.25
Globiterum. Tight green rosettes tipped with red	.25
Greenii. Large green rosettes	.35
Heuffellii. Small yellow flowers. Very fine	.50
Lown's No. 60. Medium rosettes suffused with red	1.00
Mettenianum. One of the prettiest. Medium rosettes, grey-green, marbled with grass-green, tipped with red. Rose flowers	.50
Minto Seedling. Very rare hybrid. Large rosettes. Deeply tinged with red	1.00
Pittoni. Medium-sized rosette, with a downy surface to the leaf. Pale yellow flowers. Scarce	.75
Mixed Varieties. Unnamed doz.	1.00
Pyrenaicum. From the Pyrenees. Pale rose flowers in wide heads	.75
Rubicundum. Large rosettes of reddish colour	.50
Soboldiferum. Pretty golden rosettes	.25
Triste. Rosettes of bronzy-green foliage. Purple flowers	.50
Wulfeni. Large sea-green rosettes. Sprays of large, pale yellow flowers with purple centers	.75

SILENE

Acaulis. Mats of bright green moss-like foliage. Almost stemless pink flowers in June and July. Requires a little shade during the hottest part of the summer35
Alpestris. Glistening white flowers. A very fine dwarf species25
Alpestris Grandiflora. Delicate branching stems about 6 in. high carrying wide showers of white flowers with fringy petals. It likes a cool place in rich light soil50
Californica. Huge, ragged, velvety scarlet flowers in a dark calyx. Requires deep light soil, well-drained and a sheltered sunny place50
Grandis. A fine hybrid with fringy pink flowers40
Hookeri. Soft blue-grey foliage and very beautiful fringed coral-pink flowers. 6 in. June. Choice75
Maritima Fl. Pl. Blue-grey leaves. Large crinkled white blossoms. All summer50
Petraea. Tufts of long, narrow, bright green leaves. Lovely white stars with fringed petals50
Roehmeri. Mat forming plant with 6 in. stems. Clusters of white blossoms35
Saxifraga. Mossy growth. White flowers in great profusion all summer35
Schafta. Profuse leafy tufts. Showy flowers of rosy-purple ..	.30
SOLDANELLA ALPINA — Dwarf Alpine. Drooping violet flowers on three in. stems. A gem. Scarce75 - 1.00
SPIREA NANA —A charming dwarf shrublet from the Northwest	1.25
STACHYS CORSICA —Dwarf carpenter. Pink and white flowers all summer50
STATICE MINUTA — Tiny rosettes of spoon-shaped leaves. Lavender blossoms on sprays of three to four inches. Very fine40
SYNTHYRIS	
Pinnatifida. Dainty plumes of blue on 8 in. stems. Rare and fine	1.00
Rotundifolia. Spikes of pale blue flowers35
TETRANEURIS SIMPLEX —Neat clustered rosettes of lance-like leaves edged with silver. Golden daisy blossoms on leafless stems 4 to 6 in. high in June and July. Rare and fine. New	1.00
TEUCRIUM CHAMAEDRYIS — Tiny shrub with glossy dark green leaves and rosy-lilac flowers35 - .50
THALICTRUM DIPTEROCARPUM — Lovely spires of mauve flowers35
THALSPI JANKAE — Tufts of silvery leaves. Short branching stems carrying pure white, sweet scented flowers. 2-3 in.	.50

THYMUS

Aureus. Bushy type. Golden foliage50
Azoricus. Pretty green mats. Rosy flowers40
Citriodorus Argenteus. Silver leaved, lemon-scented Thyme .35 -	.50
Citriodorus Aureus. Golden leaved Lemon-scented Thyme ..	.35
Serpyllum Coccineus. Crimson flowered creeping thyme35
Serpyllum Lanuginosa. (Woolly Thyme). Good carpeter. Fragrant grey woolly foliage and lavender flowers35
Vulgaris. (Common garden thyme). The well-known herb. Fine foliage35

TOWNSENDIA EXSCAPA — Narrow, oval, greyish leaves. Wide Aster-like flowers of white, pink or purple. Rare and beautiful. Full sun. Sandy soil	1.00
--	------

TOXICOSCORDION GRAMINEUM —Numerous small white blossoms with yellow stamens on an erect spike. June75
--	-----

TRADESCANTIA

Brevicaulis. Large rose-coloured flowers on 12 in. stems. A charming dwarf. All summer. Sun. Sandy soil50
Bracteata. 6 in. Very fine dwarf. Mauve and pink flowers. All summer75
Virginica. Blue flowers. 18 in. Blooms all summer35

TROLLIUS

Europaeus. Large yellow globe-like flowers. A plant of the Alpine meadows40
Fire Globe. Large flowers of glowing orange colour. The finest60

TUNICA

Saxifraga. Masses of threadlike branches and delicate leaves with a profusion of pink flowers all summer35
Saxifraga Fl. Pl. Tufted plant with light pink flowers. Double flowering form. Very fine75

UMBILICUS CHRYSANTHUS — Masses of bright green rosettes. Stars of soft yellow rayed with red75
--	-----

ULEX EUROPAEUS. (Common Gorse). Spiny shrub produc- ing quantities of yellow flowers50 - 1.00
--	------------

VERBENA

Aubletia. Masses of pink flowers on 12 in. stems50
Venosa. Violet purple flowers on 9 to 10 in. stems40

VERONICA

Amethystina. Blue flowers in long racemes. Tufted habit ..	.35
Autumn Glory. A beautiful shrublet. Neat leathery dark green leaves. Masses of deep blue flowers. Rare75
Filiformis. Trailing evergreen with flowers of blue with white lip which almost hide the foliage in early spring and con- tinue in bloom over a long period40
Gentianoides. Large tufts. Pale blue flowers. Fine35
Incana. Handsome tufts of silvery-grey foliage. Spikes of Tyrian-purple flowers35

Prostrata. Dwarf species. Sheets of brilliant blue35 - .50
Prostrata Nana. Dwarf species. Masses of brilliant blue flowers50
Repens. Trailing species. Large, pale blue flowers35
Repens Rosea. Leaves feathered in broad segments. Pink flowers50
Rupestris. A pretty trailing and mat forming plant with spires of blue flowers35
Saxatilis. Neat, dwarf evergreen with large deep blue flowers, with ring of red50
Spicata Nana. Dwarf habit. Spikes of violet-blue flowers. 5 in.75
Teucrium Trehanii Royal Blue. Dwarf and bushy hybrid with beautiful bright blue flowers. Golden foliage35

VIOLA

Admiration. Beautiful rich purple. Profuse bloomer35
Bosniaca. Brilliant rosy-lilac flowers. One of the finest. Free blooming spring and autumn35 - .50
Bizarre. Mixture of soft colourings in purple and apricot ..	.50
Cornuta Cyclops. Hybrid tufted Pansy. Brilliant deep violet with white eye35
Cornuta Hybrids. Mixed. Remarkable shades and colours ..	.35
Cornuta Papilio. Pretty hybrid. Continuous bloom summer and winter outside. Large violet blue flowers in great profusion35 - .50
Cucullata. The hooded violet. Large blue flowers. 4 in.35
Florariensis. Large lilac flowers with lower petal marked in white. Long blooming period35
Giant Yellow. Beautiful golden blossoms of large size35
Gracilis. Flowers of Tyrian-purple on graceful stems35
Gracilis Jewel Von Eisenach. Fine variety of above50
Gracilis Lord Nelson. Rich violet-purple flowers. Neat habit ..	.35
Hybrida Haselmere. Produces an abundance of pretty soft lilac-pink flowers. Very neat habit. Continuous blooming period35
Jersey Gem. Violet flowers on 8 in. stems25
Lutea. Golden-yellow flowers25
Lutea Splendens. Large bright golden flowers35
Ocellata. Heart-shaped, pointed leaves. The upper petals are white on the inside and deep purple on the outside; the lower are yellow, veined with purple. Rare50
Pedata. Pale lavender flowers. Deep cut foliage25
Pedata Bicolor. Deep velvety violet upper petals. Pale blue lower petals. The finest of our native violas. Blooms all summer and autumn35 - .50
Pedunculata. Golden yellow, outside of petals dark brown ..	.40
Royal Gem. Gorgeous royal purple flowers of large size40
Radio. Light lavender with darker shadings35
Sylvestris Rosea. Dwarf species with fine rosy-pink flowers ..	.40
W. H. Woodgate. Large, dark violet flowers40

WAHLENBERGIA (Edrianthus)

Dalmatica. Rounded flower heads of blue flowers on 6 to 8 in. stems. Very fine40
Pumilio. Dainty blue flowers. An excellent rock plant	1.00

*Wahlenbergia Pumilio*

TABLE GARDENS are becoming very popular. When properly planted with alpine miniatures they are fascinating and provide great interest during the winter. The list of plants given below have been thoroughly tested in overheated rooms and have proven their adaptability to flourish under these trying conditions.

Saxifraga in variety, Primula Juliae, Cotula Squalida, Rosa Roulettii, Bellium Minutum, Bellis Rotundifolia Caerulescens, Edrianthus, Sedum Oregonum, Sedum Spathuifolium, Soldanella Alpina, Erinus Alpinus, Dwarf Ivies, Dwarf Ferns in variety, Lotus Corniculatus, Mentha Requieni, Hutchinsia Auerswaldii, Houstonia Coerulea, Sedum Dasyphyllum, Raoulia Australis, Achillea Tomen-tosum, Globularia Nana, Small types of Sempervivums. Lithospermum.

Erica Used as Tree in This Garden

For "trees" the following may be used:— Aethionemas, Hypericums, Ericas, Small Azaleas, Seedling Evergreens. Dwarf Rhodedendrons.

If you will send us the size of the container, we will be very glad to give suggestions on how to arrange the planting and what to use. We also have a collection of beautiful stones to use in these gardens.

CONTINUITY OF BLOOM

THE OPINION among many alpine enthusiasts in the past has been that a rock garden is only an event of the spring. Unfortunately this has proven the case through a lack of knowledge of late flowering plants and faulty arrangements of planting to carry bloom from very early spring until the heavy frosts of winter arrive. Below we mention a few plants which will carry the bloom through summer and autumn and we will be glad to add other names of late flowering plants if you will write us the situation of your rock garden and your wishes. A great many rock plants will bloom again in the autumn if cut back and given a top dressing after the spring bloom is past.

Abelia Grandiflora	Achillea Aurea
Alyssum Argenteum	Achillea Tomentosa
Androsace Lanuginosa	Anemone Hupehensis
Arenaria Grandiflora	Asperulas
Asters in variety	Bellium Minutum
Bellis Rotundifolia Caerulescens	Callirhoe Involucrata
Campanulas in variety	Cheiranthus Allioni
Clematis Integrifolia	Convolvulus Mauritanicus
Cyclamen	Various types of Dianthus
Dianthus	Ericas
Dicentra Formosa	Erodiums
Erigerons	Euphorbias
Eryngiums	Genistas
Felicia Petiolata Rosea	Geraniums
Gentianas	Houstonia
Geums	Inulas
Hypericums	Lotus Corniculatus
Lithospermum	Nierembergia Rivularis
Morisia	Onosma
Oenothera	Papaver
Oxalis	Phlox in variety
Various Pentstemons	Sedums
Primulas, several types	Thymes
Sempervivums	Tradescantia
Stachys Corsica	Verbenas
Tunica Saxifraga	Violas
Veronicas	
Dwarf Roses	

THE PERFECT GARDEN LABEL

Made in two sizes, Border size and Rock Garden size.

Ordinary lead-pencil markings on this Label are permanent without any protection, in all weathers, all soils, all seasons, above or under the soil. Inconspicuous, the beautiful cool gray green color blends with the soil, foliage, and rocks. They are economical as the markings can be completely erased with pencil eraser and Label marked again at any time.

CRONAMERE HUMUS

FOR ROCK GARDENS — GRADE A

Our own preparation to be used in the building of rock gardens as well as top dressing spring and fall.

1 Bag	100 lbs.	1.00
10 Bags	1000 lbs.	7.50
20 Bags	2000 lbs.	12.50

LAWNS — GRADE B

Especially recommended for dry gravelly soils, being high in organic content and retaining moisture during the dry season. Also highly beneficial as a lawn top dressing when worked into the turf as it contains no weed seeds.

1 Bag	average 80 lbs.90
10 Bags	average 80 lbs. each	7.50
1 cu. yd.	Bagged	12.00
1 - 5 cu. yd.	Bulk	7.50

Carload 20 - 40 cu. yd. Bulk F. O. B. Branchville, Conn. \$5.00 cu. yd.

THREE IMPORTANT PERIODICALS FOR
THE ROCK GARDENER

THE AMERICAN HORTICULTURAL SOCIETY

Publishes for its members a quarterly magazine in which are many articles and pictures of plants that should be known to all rock gardeners. You are cordially invited to join by sending your check for three dollars to the Secretary, Mr. C. C. Thomas, 211 Spruce Street, Takoma Park, D. C.

HORTICULTURE

Published semi-monthly at Horticultural Hall, Boston, Mass. Subscription rate—one year, in advance, \$1.00.

GARDENERS' CHRONICLE of AMERICA

Executive and editorial offices: 522 Fifth Avenue, New York, N. Y.
Subscription — \$2.00 per year.
